

# XVI STUDENT SCIENTIFIC CONFERENCE

On April 2, 2011 Azerbaijan Society of Petroleum Geologists held Student conference jointly

with Azerbaijan National Committee of Geophysics and EAGE Local Chapter. The conference was held at Geophysics and Geology Department of SOCAR. Students of Azerbaijan State Oil Academy and Baku State University took part in this conference. Yusif Shikhaliyev

greeted all the participants and made a opening speech. He stated that ASPG held conferences for 15 years and

beginning this year the conference will be held in association with ANCG. He stressed that participation at the conference is a great chance for students to demonstrate thier knowledge not only to thier teachers but also to the specialists working in the oil&gas industry. This is also a great opportunity for

professionals to know well-educated and distinguished students, so that ..... At the end Mr

Shikhaliyev notified that the conference would be held in two sections.

Yusif Shikhaliyev, Vagif Gurbanov, Huseyin Huseynov, Bakhman Hajiyeve were the members of jury at the first section. Here Yuliya Obedkova “Mud volcanos and their link to petroleum”, Yashar Soltanov “Comparative analyses of the “Neft Dashlary” oilfield NKP suite according to the development results of blocks”, Faig Hasanaliyev “Brief information about the prospects of the Umid-Babek areas”, Orkhan İsmayilov “Estimation the gravity impact of stuctures at the regions of complex structure.”, Rashad Amrahov “About new information of halogen signs at productive

layers of the Lower Kur and tectonic zones of Baku Archipelago.”, Shakhla Nuruzade “Diapiric folds”, Mekhman Malikov and Maharram Mammadov made presentations. At second section in jury were Bakir Maharramov, Nargiz Asgarova, Nariman Babayev, Agamusa Dadashov. The presenters were: Mushfig Guliyev “Estimation of the stableness of the “Najafkand” landslide area in the Gusar district”, Gulşan Safarova “Landslide and measures to take”, Vugar Najafov “Realization results of oil fields according to the quality of oil reserves.”, Fuad Aliyev “The origin of anomal pressures in the collectors of oil and gas and their role in the

investigation of natural reservoirs”, Narmina Feyzullayeva “Investigation of the collectors with complex structure by the complex mine-geophysical methods.”, Elnur Rasulzade “Geothermal water deposits and geothermal stations of Iceland”, Kamran Gadirov “Thermal and mineral waters of Azerbaijan”, Sabuhi Bayramov, Ulviyya Guluzade and Dilbar Safarova.

At the end of the conference Yusif Shikhaliyev thanked all the students and their supervisors for the excellent training and the preparation for the conference presentations. Then the jury announced the students of 1st, 2nd and 3rd places. The owner of the 1st place was the Yuliya Obedkova, 2nd place Mehman Malikov, 3rd were Faig Hasanaliyev and Sabukhi Bayramov. There were presented valuable gifts to all the winners and incentive gifts to 11 students for their good performance.
